Modern physiology has doubtless done much for the amelication

lioration of human suffering, in pointing to the blood as the seat of the elements of disease in a wide range of disorder; but experimental chemis-try has done quite as much in the discovery of an agent which will reach and purify the infected and infecting stream. Sands'Sarsaparilla affects this important change, with a directness and uniformity almost incredible. Salt Rheum, Erysipelas, Ringworm, Leprosy, every species of Scrolu-lous complaint, Mercurial Ulcers; in brief, all suppurating sores and eruptions disappear under

its operation. For further particulars, and conclusive evidence of its superior value and efficacy, see pamphlets which may be obtained of agents gratis.

HORSE POWER AND THRESHING MACHINE. Horse Power and Threshing Machine now in that where it was used last year it was universally approved. The Horse Power, particularly, is unrivalled. From two to four horses is all the

power ever required; and for compactness, ease This Machine is calculated to get out deanly from 120 to 150 bushels per day; but for 150 dollars a larger drum will be furnished, that with four horses will thresh 250 bushels. Orders are pouring in, and those desiring the

Machines will please inform me at once, that I may not be harried in getting them up; and, therefore, may have a better opportunity of turning out a good article. See Mr. Roane's opinion of this Machine, as

of Prince George, he says: I prefer your machine over all others with which I am acquainted; because, 1st, It is simple in construction, and not apt to get out of order.

other machines, and is fully adequate to crops of 1,000 to 1,500 bushels. 3d. It can be worked with the hands usually found on farms to which it is adapted, without the expense and trouble of hiring extra labor. 4th. It is known that the purple straw wheat (of

which we grow the most) has more capped grains than any other—very few of which pass from your machine in this objectionable condition.

5th. With three mules and ten hands, I threshed with ease 120 bushels per day, passed it through the fan once, and stacked the straw. 6th. The horse-power is, without doubt, the most perfect I have ever seen.

The subscriber having pu-

of Mr. Cyrus H. McCormick, the Patent Right in his highly approved Reaping machines for the counties of Henrico, New Kent, Charles City, James City and Gloucester, would inform the Farmers of those counties, that he is now prepared to furnish them with those reaping machines of as good or a little better quality than any that have as yet been made at \$110, deliverable in Richmond, and been made at \$110, deliverable in Richmond, and hopes that those in want of those Reapers will forward their orders to him as early as possible.— He is also authorized by Mr. McCormick to receive orders for those machines from other co ties on the North side of James river; and by Mr Martin Turwiler, the proprietor of said right, for the counties lying on the South side of James ri-ver, in Virginia, to receive orders for him. As it is of great importance that the cutting knives in those machines should be of the best quality, the part ofsubscriber would inform those who may want his machines, that he has contracted with the wellknown and justly approved edge tool maker, John Hitchcock, Esq., to make his reaping knives, and which, with the turning of all the gudgeons and other extra work, he thinks, will fully justify him in charging Five dollars higher for chines than is charged by others when delivered

in Richmond, as they afford him but a small profit The Patentee of this Reaping Machine (Mr. McCormick) having published in the Richmond Whig, of October 27th, 1843, and of December 20th, 1811, and other papers, many certificates from Virginia farmers, of high standing, who have those Reapers in use, showing their appro-val of those Machines, and their great saving of labor and wheat, the subscriber concludes that few, if any, wish for further testimony in their fa-vor; and, therefore, he will now publish only the two following certificates, from gentlemen residing in, and well known in the district for which he has purchased the right-one living near Rich-

mond, and the other in Charles City county JABEZ PARKER. Mr McCormick-Sir: I have used your tent Wheat Cutting Machine, made by Mr. Ja-bez Parker of this city, with entire satisfaction, cutting with great ease from 12 to 16 acres per one blade, which appears to be but little worn, and as good as ever. Some of my wheat was heavy and leaning, and some I cut when it was wet-the machine managed it well, and cut very

Yours, respectfully, JNO. P. SCHERMERHORN. clean. Richmond, 18th June, 1844. GREENWAY, Charles City Co., Feb. 27, 1845. Mr. Parker: Some time during the last Spring or the early part of the Summer, I purchased one of Mr. C. H. McCormick's Reaping Machines, with which I cut the greater portion of my last crop of wheat without the least interruption, and to my entire satisfaction, at a saving, in my estimation, per lay, in labor and the dif-ference between that ordinary scythemen, of eight dollars. I work three mules to my Ma-chine, (one in the lead, as they are managed with s much facility as two, and to supercede the necessity of changing the team,) and can cut, with ordinary diligence, between seventeen and twenty acres per day. Mr. McCormick furnished two knives with the machine, one of which proved rather indifferent, which is the only com-

plaint I have, or can with propriety make to my purchase; in all other respects it is every thing I could have desired.

Understanding you have purchased the patent right of this Machine for some of the counties of this State, should you have to furnish any, I request the favor of you to procure for me a knife of Mr. Hitchcock's make. I think with a knife of Mr. Hitchcock's make and tempering. shall be fixed in the reaping way till I am harvested home myself. Yours, very respectfully, &c., May 13-c4: RO. W. CHRISTIAN.
